

Award-Winning Renewable Energy Solutions for Top Companies

Whether you're an industrial, commercial, retail or other large business, we can help you meet and even exceed your sustainability goals utilizing regional energy for custom solutions.

RPD Energy facilitates the sourcing, contracting and delivery of renewable energy for U.S. companies.

We offer the best in cutting-edge technology for state-of-the-art energy solutions and analytics capabilities for projects and reporting that exceeds expectations.

We source energy directly from regional wind, solar, and hydro assets, customizing contract volume and length to meet your needs.

Trusted Leader in 24/7 CFE (Carbon-Free Energy) Solutions

*Simple Retail Contract
with Flexible Terms*

Meet Your Energy Sustainability Goals with RPD Energy

- We source renewable energy and concurrent RECs from a regional generator to deliver sustainability benefits using a standard retail energy contract
- Our comprehensive and flexible solutions meet all environmental reporting agency protocols

Maximize your Energy Budget with Cost-Effective Renewable Power

- With RPD Energy's solutions, you can buy regional, physical renewable energy without having to sign up for an entire wind or solar farm
- Shorter, streamlined contracts with more flexibility and less risk

Decrease your Footprint with 24/7 CFE (Carbon-Free Energy)

- To maximize your sustainability impact, we can also match your hourly energy demand with renewable generation. We use cutting-edge forecasting and analytics – and strong supply relationships to construct an optimized generation profile from multiple renewable energy sources that will track your forecasted load.

Achieve your Energy Sustainability Goals on Budget

- From simple physical renewable power to complex hourly load matching, our extensive knowledge of the renewable energy value chain delivers your solution cost-effectively to meet your energy sustainability goals.
